

I would like to provide CADS with a specialized discount program for UCLEAR products for program volunteers and participants.

We have made you a special 25% discount code: CADS25

Please note UCLEAR's business strategy is focused on supporting a network of powersports dealers in Canada, and it is our policy not to compete with them or offer programs with which they cannot duplicate.

Our request is that the CADS25 discount code not be used to purchase systems for powersports use, and that the code is not shared with the general public. The code is offered for non-profit program use only.

Your 25% off discount code is: CADS25

Apply the code to items in your cart at our website: www.ucleardigital.com

Note about the available systems: Our AMP Plus (up to 6 users) and AMP Pro (unlimited users) model communication systems are discounted, as well as all UCLEAR accessories. These systems are available in single kits or dual kits (2 of everything in the box). There are additional savings when purchasing dual kits.

My sincere hope is that this discount program and our communication systems will help more of your organization's participants enjoy activities in the outdoors and an improved lifestyle.

Thank you for all that you are doing.
